Notice of Funding Availability

New Hampshire's Nonprofit RESPONSE FUND

Our partners need us now more than ever and we will together have the resources to react and then to rebuild.

Funds to nonprofits to fund working capital, equipment and program delivery and expansion with a maximum award of $100,000 for working capital, equipment purchases and programming expenses.

The NH Nonprofit Response Fund will rapidly deploy resources to community-based organizations at the front lines of the outbreak and nonprofits supporting the most vulnerable individuals and families directly impacted. CDFA and BFA will administer loans including deferred loans to qualified nonprofits. In order to move resources quickly and not further burden organizations on the front lines of the pandemic, we will provide simplified and flexible application processes, the application is available here and applications will be accepted starting on April 13th. Funds will be released on a rolling basis as funds are raised, continuing throughout the outbreak and recovery phases of the crisis. Overall, the Fund will be managed so that we can respond rapidly to community demands and adapt to evolving needs in subsequent funding phases.
